

CS 2430 – Project Repository

Name: Connor Callahan

Course: CS 2430

Semester: Summer 2026

Purpose

This repository contains my project submissions for CS 2430. It is organized into folders for Projects 1–4, along with a docs folder for reports and supporting documentation.

Structure

- `project1/` – Project 1 source code and docs
- `project2/` – Project 2 source code and docs
- `project3/` – Project 3 source code and docs
- `project4/` – Project 4 source code and docs
- `docs/` – Course-level documentation and reports

Note

Project 0 is a setup and research assignment. Projects 1–4 will be added as the semester progresses.
